

PUFFY SIDEWALK PAINT

Robot[®]
Education

Paint your sidewalks and driveway with DIY puffy paint!

Materials:

- 1 cup flour
- 1 cup water
- 1/2 cup shaving cream
- food coloring
- gallon freezer bags
- plastic squirt bottles

Mix the flour and water in the gallon freezer bag until there are no lumps.

Add 10 drops of food coloring and 1/2 cup shaving cream.

Snip a corner off the bag to pipe the mixture into the squeeze bottles (like frosting!)

Repeat for as many colors as you'd like, then start doodling!

Make sure to wear clothes you don't mind staining.
