

Bug Hunt

Bugs, bugs, bugs! Help the Root Coding Robot fix the bugs in the code!

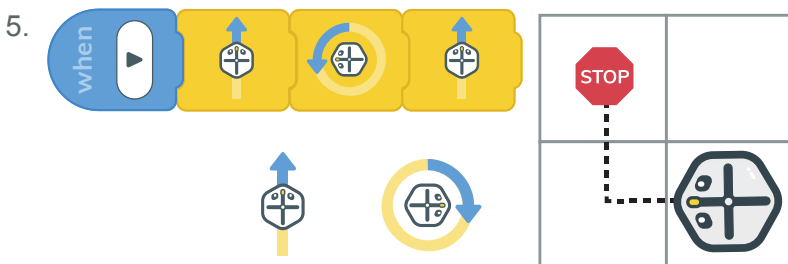

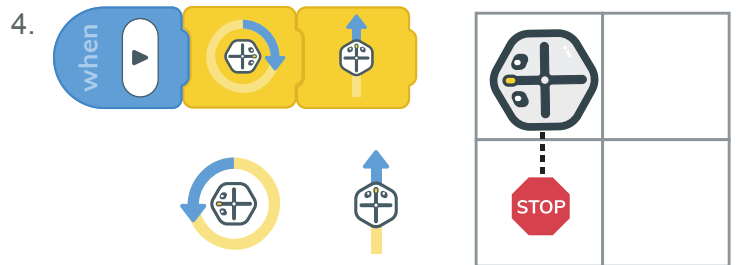

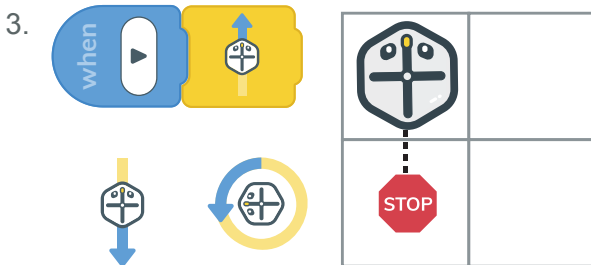

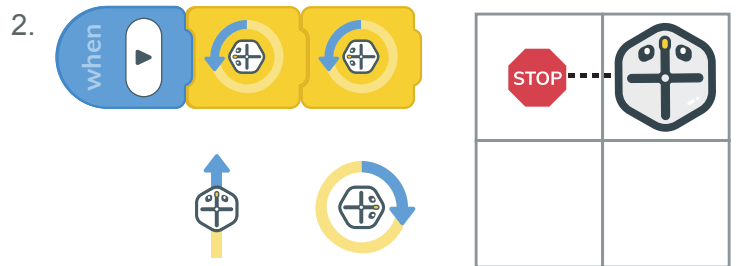

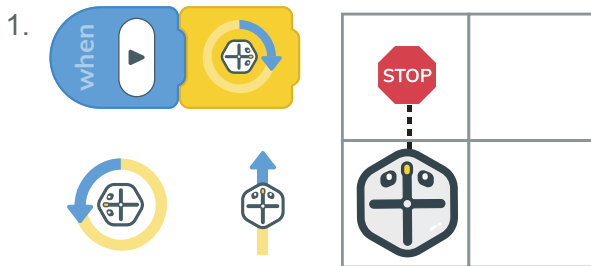

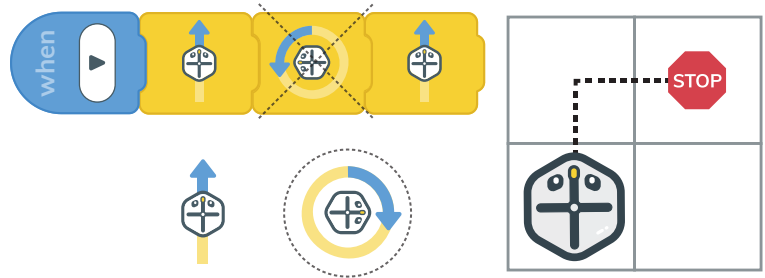

What is debugging?

To “debug” code, look for “bugs” or parts where the code is broken.

Fix them so the code works!

1. Find the bug in the code and cross it out.
2. Circle the correct answer.

Going Further

Check out the Generations of STEM biographies to learn about Grace Hopper. She discovered the first computer bug!
