

Flower Power Shapewheels

Help the Root robot create shapewheel flowers from the garden!

1. Copy the code below into a new project in the iRobot Coding App.
2. Press Play to test your code with your Root or on the simulator.
3. Which shapewheel flower does your Root draw? Circle the matching shapewheel flower.

1.

What shapewheel flower does this code create?

Flower A

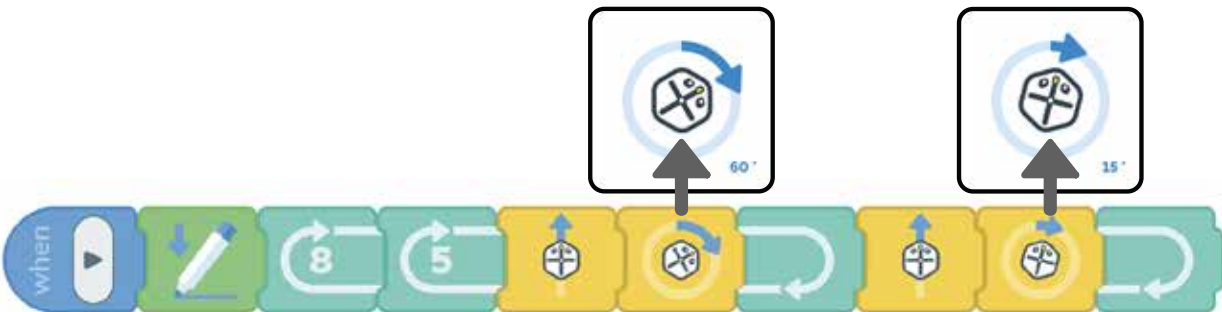

Flower B

Flower C

2.

What shapewheel flower does this code create?

Flower A

Flower B

Flower C
